

# Mustapha Conteh

<https://portfolio.mustapha-conteh.me/>

A recent computer science graduate with a passion for learning, who is seeking opportunities to gain experience in the software industry.

## EXPERIENCE

### **ConQuest** — *A Sports Management & Nutrition Tracking Application.* (SENG302) (2023)

In 2023, for a university course, I worked in a group of 8 students to develop a sports management & nutrition tracking application called **Conquest**. We worked in an agile scrum environment, we used technologies such as **Springboot, Thymeleaf, Bootstrap, Playwright, Java, Javascript, and Git** to build the application.

### **MChat** — *A Web Chat Application*

(Personal Project) (chat.mustapha-conteh.me) (2023 )

In late 2023 I developed a chat application named MChat (similar to Discord). From working on MChat I gained experience in implementing real-time communication using **SignalR**, the deployment of **node js**, and **react** applications to the web using **Firebase**, and **Heroku**, and cloud storage via **S3** on **AWS** as well as further experience in the development, and consumption of rest APIs.

### **portfolio.mustapha-conteh.me** — *My portfolio website*

(2024)

I developed a portfolio website to showcase my projects, using **CSS, HTML, Python, and Django**. I deployed the website using **DigitalOcean**.

### **Grocery List Plus** — *A website for easily searching for groceries*

(2024)

Grocery List Plus is a web application you can use to create, and manage grocery lists. What makes it unique is that you can search for the items in your grocery lists across three major supermarkets in New Zealand: **PAK'nSAVE, New World, and Countdown**.

## EDUCATION

### **University of Canterbury, Christchurch** — *BSc In Computer Science*

2021 - 2023

I completed the final year of my studies for my Bachelor of Science in Computer Science.

### **St Bernard's College, Wellington**

2013 - 2020

NCEA Level 3

Bryndwr, Christchurch

022 410 6083
